

PREFERRED PARTNERSHIP

schoolAbility provides a comprehensive suite of software and services to manage school business office operations using Skyward's® Qmlativ School Business Suite; a fully-integrated, state-of-the-art web-based ERP system specifically for schools.

schoolAbility delivers Skyward® Qmlativ using the Software as a Service (SaaS) managed hosting model and provides related consulting services including implementation, training, value-added support, and optional payroll processing services.

SKYWARD AND SCHOOLABILITY'S PARTNERSHIP OFFERS:

Cost Effectiveness

schoolAbility delivers business office software and payroll services at a lower total cost of ownership when compared to other options.

Expertise in School Payroll Processing and Retirement Reporting

schoolAbility's team has extensive experience processing school payroll, including managing the payroll and retirement reporting for charter schools in California, Texas, and New Mexico.

Elimination of Extra Paperwork

Save time and resources with the Employee Portal, featuring HR/Payroll information and the ability to submit electronic updates for W4 and demographic changes.

Elimination of Risk

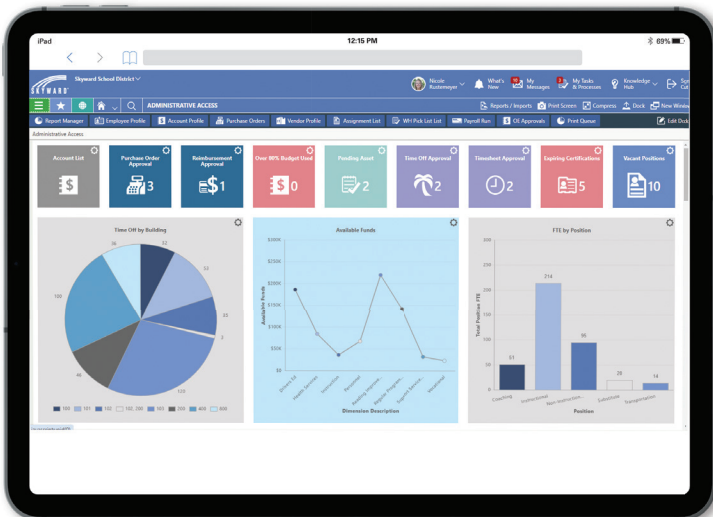

In-house payroll processing creates multiple points-of-failure for the school. schoolAbility eliminates this risk with personnel redundancies built into its business model, and with Qmlativ's data protections.

Segregation of Duties

Segregation of duties protects schools against audit findings, substantial penalties, and loss of revenue. schoolAbility implements robust segregation of duties using Qmlativ's approval workflow and granular security settings.

Peace of Mind

Enjoy peace of mind knowing your business office and payroll processing operations are supported by experienced professionals so your team can focus on student achievement.

Less time on tasks.
More time for students.
