To Whom It May Concern,

I am pleased to provide this letter of reference in support of your organization, SchoolAbility. Throughout our engagement with the Skyward Qmlativ ERP system, your team has consistently demonstrated excellent customer support, with a clear focus on understanding and responding to client needs while remaining attentive to California TK-12 reporting requirements and governing board expectations.

Based on our longstanding relationship and proven customer support, we took a leap of faith with SchoolAbility to become an early adopter of Skyward Qmlativ in California. That decision has been well supported by your team's continued responsiveness, professionalism, and commitment to addressing issues effectively.

In particular, we have been very satisfied with the functionality of the Skyward Qmlativ ERP system. Its ease of use, especially in working with SACS account code strings and generating SACS file exports, has streamlined key processes and improved overall efficiency. Additionally, our LEA successfully transitioned all vendors to ACH, and the system's security features provide effective internal controls and a reliable audit trail for all transactions. The HR modules are also highly effective, including payroll capabilities that accurately process CalSTRS and CalPERS and support LEA-specific salary tables.

Based on our experience, I confidently recommend your services to any local education agency seeking a reliable, customer-focused partner.

Sincerely,

Tammy Stanton
Chief Financial Officer
